Experience

SDE Intern, Cloudspital

May 2024 – July 2024

- Collaborate with our engineering team to design, develop, and maintain applications using TypeScript, Postman, React, and PostgreSQL.
- Integrated EZDX with telemedicine systems, enhancing remote diagnoses.
- Contribute to backend development and working with PostgreSQL to query databases efficiently.

Projects

DEV-FINDER | Next.js, Shadcn, Tailwind, TypeScript, Docker

- This is a Next.js project bootstrapped with create-next-app.
- This website focuses on enabling users to connect via video calling for collaborative coding sessions, making it an ideal tool for enhancing remote teamwork and learning.
- GitHub Project Link : [project-link](#)

MEDIUM like blogging app | TypeScript, JavaScript, HTML, CSS

- Developed a modern blogging platform powered by React.js, TypeScript, and Cloudflare Workers with Hono.js. The platform boasts an impressive average page load time of under 1 second.
- Using Zod to ensure data integrity, the platform delivers a secure and reliable user experience at unmatched speeds.
- GitHub Project Link : [project-link](#)

ACHIEVEMENT/RECOGNITION

- Over 500 questions tackled across platforms such as LeetCode, GFG and other platform.
- Successfully completed the Web Development Cohort.

POR & Extra-Curricular Activities

- Captain of the ECE Volleyball Team.
- Technical Executive Member for the College Fest.
